

Spectrum Foods Limited was incorporated as a Public Ltd. Company on February 07, 1994 with the express object of setting up of the largest Salt Refinery in North West India on the borders of Phalodi in the middle of Bikaner and Jaisalmer. The company has various divisions which are briefly mentioned below-

- **Salt Division-** The Company's Plant Location is strategically located to save huge transportation cost and logistic cost for supplying salt to MNCs who are manufacturers of detergents based out of Haryana, Punjab and Himachal Pradesh. Also it is in a much advantageous position to supply Edible Salt to Jammu and Kashmir and Ladakh and big cities of Western Rajasthan like Jodhpur as compared to other salt refineries. The Company is leading producer of Industrial Grade Salt in 50 Kg and 1000 Kg Jumbo Bags which are being supplied to all MNCs in Punjab and Himachal Pradesh. Our plant is one of the few plants having ganantry setup for smooth movement of 1000 Kg Jumbo Bags from salt filling to automatic loading into large trucks and trailers. The salt produced by this salt refinery is high in purity and matching International Standards. The Salt Refinery was designed with the help of eminent Salt Technologists, who had over 3 decades of experience in this line, which included lot of spadework done in this field in Switzerland.

The Salt Refinery is based on the latest principles of chemical engineering resulting in very low consumption of utilities and exceptionally high purity of the final product. The Company has imported all the major plant & Equipment from reputed suppliers of Germany, Switzerland & USA.

- **Spices Division-** Our company is also having a 25000 MT Spices plant to make spices at Phalodi near Jodhpur which is rich source of raw materials like red chilli spices and kasuri methi. As a matter of fact all leading companies of spices of India are procuring their raw material from these areas.
- **Solar and Wind Energy Assets-** Spectrum Foods Limited is also a leading player in solar and wind energy. Our plant located in Phalodi is using upto 70% inhouse solar energy hence resulting in huge saving in electric cost and reducing carbon footprint. Our company is also having a large 1.5 MW Windmill which is having a long term tie-up with MPPCL at a most lucrative rate. The windmill is a great profit generating asset for our company.
- **Hospitality Asset-** Our company is also having 22 Beegha land at Pushkar which is a major tourist destination in Rajasthan famous for Pushkar Fair and we are planning to build 150 room luxury resort for which we are already having a tie up with MNC Hospitality Company.

Further the Company is debt free and its shares are being actively traded.
